ZDM – Zululand District Municipality

2014/2015 BUDGET PRESENTATION BY ZDM MAYOR, HIS WORSHIP, CLLR M A HLATSHWAYO

ZDM MAYOR'S FINANCIAL REPORT FOREWORD

The Zululand District Municipality proposed Budget for the 2014/2015 financial year is R869, 178, 000. This is a R14,209, 000 increase compared to the previous financial year's budget which was R854 969 000.

This budget will assist us in providing service delivery to about one million citizens of this District because we are still committed to improving the quality of life of our communities.

CAPITAL BUDGET

In the 2014/2015 Budget our Capital Budget has decreased by 9% to R355 008 000 from R390 328 000 in the previous financial year. This is due to the following reasons:

In the 2013/2014 financial year, the ACIP (Waste Water Refurbishment Programme) amount was R600, 000. In the 2014/15 financial year the ACIP programme is not gazetted because it was a three-year programme agreement which is ending in the 2013/2014 financial year. MIG has decreased by R39, 923,000 as per DORA (Division of Revenue Act). Infrastructure sport facilities grant of R2, 469,000 was gazetted in 2013/2014 but was never received. It is not gazetted in the 2014/2015

budget. Regional bulk infrastructure will increase by R16, 671, 000 in 2014/2015. Rural road asset management grant will increase by R301, 000 in 2014/2015 from last financial year's R1 866 000. Municipal water infrastructure grant will increase by R 2, 035,000 in 2014/2015 financial year. The overall decrease in capital expenditure is R 22,037,000 which is 9%.

This decrease also does not mean that our focus as a District Municipality has been changed or is to change. Providing water and sanitation is still our core function and we also pay attention to the following responsibilities:

- Municipal airports;
- Municipal roads;
- Fire fighting;
- Disaster management;
- Solid waste;
- Municipal health services;
- District tourism.

Despite this cut in our Capital Budget, we are still going to provide necessary services that are expected from us as a District Municipality.

OPERATING BUDGET

An adjustment has been made in the Total Operating Budget which has seen an increase of eleven percent from R464, 641, 000 in the 2013/2014 financial year to R514,170, 000 in the 2014/2015 financial.

The reason behind an increase in our Operating Expenditure is escalating costs in things like Employee Related Costs, Working Capital Reserves, Remuneration of Councillors, Working Capital Reserves, and increase in the depreciation and collection costs. The repairs and

Maintenance costs are also part of the cause. These include the maintenance of municipal buildings, vehicles, the refurbishment of water and sanitation treatment plants and the like.

CONCLUSION

We are aware of the critical backlogs in water and sanitation provision, and we are also speeding up the construction of the 10 Regional Water Schemes, the Nkonjeni, Mandlakazi, Usuthu, Simdlangentsha West, Simdlangentsha Central, Simdlangentsha East, Hlahlindlela, Khambi, Coronation and Mkuze regional water schemes.

Although these schemes are still under construction, it is worth noting that a number of communities are already enjoying their benefits as they are already drawing water from them.

I want to assure all our communities that we are still committed in solving water related problems and as in the previous years, a large chunk/percentage of our budget in this financial year will go towards water provision programs.

In order to achieve success, we are aware that it is critical to maintain good working relationship with traditional leadership (Amakhosi and Izinduna) as most of the land in our District is under their control. We have taken a decision to employ Izinduna in all projects taking place in their areas in order to ensure that we are guaranteed co-operation from communities we are working with.

As Mayor of Zululand District I will strive to run a corrupt free municipality, and we will also continue to maintain of record of clean governance as proven by our 14 years of unqualified audit reports from the Auditor-General.

I also want to assure our community that our District Municipality will continue to be sensitive to all community issues with the aim of assisting or solving them.

With the budget available to us we will still continue with all our old programmes, Poverty Alleviation, Local Economic Development (LED);

Community Participation, Youth and Women's day celebrations, host the Elderly and the Children's Christmas parties the ZDM 56km Ulundi/Nongoma Ultra Marathon and many more others, because our aim is to make a difference in the lives of our people.

I thank you.

EXECUTIVE SUMMARY

BACKGROUND

1. The 2014/2015 budget

Legislative framework

In terms of section 16 (1) of the Municipal Finance Management Act, Act No.56 of 2003, the council of a municipality must for each financial year approve an annual budget for the municipality before the start of that financial year. (2) In order for a municipality to comply with subsection (1), the mayor of the municipality must table the annual budget at a council meeting at least 30 days before the start of the budget year.

The 2014/2015 budget is prepared in accordance with the Local Government; Municipal Finance Management Act, 2003 and the Municipal Budget and reporting regulations issued by the Minister in terms of Section 168(1) of the Act. In terms of these regulations a multi-year budget spanning over three (3) years is prepared. It needs to be noted that the figures for 2015/2016 and 2016/2017 are indicative in terms of the medium term revenue and expenditure framework (MTREF). The functions have been ring-fenced in terms of the Council vote structure

Medium term service delivery objectives as stated in the Integrated Development Plan (IDP):

The medium term service delivery objectives of Zululand District Municipality include the following strategic focus areas and objectives:

Service delivery -focusing on the eradication of water and sanitation backlogs through the implementation of regional schemes. Our ultimate objective is to progressively provide a cost effective, good quality reliable water services to all potential consumers in the district.

Economic development- The objective is to improve the economy of the district through the creation of job opportunities and additional economic activities.

Social development- The objective is to reduce the occurrence and impact of HIV/Aids and to develop and empower youth, gender and communities in the district.

Institutional development- The focus is on employment equity with the objective of transforming the municipality and capacity development for effective service delivery.

Financial management- our objective is to ensure sound financial management by promoting good financial practices with a view of ensuring a financially viable municipality.

Good governance and public participation- The objectives are to promote good governance, accountability and transparency; to operate the municipality at a minimum risk level.

Other focus areas include:

- Municipal airports
- Municipal roads
- Fire fighting
- Disaster management
- Solid waste
- Municipal health services
- District tourism

Financial implications of the medium term service delivery objectives:

As a water services authority, ZDM spends a substantial portion of the municipal infrastructure grant (MIG) on water and sanitation projects. The recovery rate of water tariffs is very low due to the fact that the population within the district is predominantly rural and poor such that the level of service in these areas takes the form of communal stand pipes. As a result, the water is provided as a free basic service with no or minimal recovery at all.

As a rural node, the district does not have major industries and economic hubs. As a result, Unemployment is rife and cross subsidization is not possible. Therefore, the district is heavily dependent on grant funding to implement its mandate in terms of the constitution of the Republic.

Linkages between the budget, the IDP and political priorities

Firstly, the budget timetable and the IDP process plan are aligned through an integrated time schedule.

Secondly, the IDP is prepared and the projects thereof are included in the budget.

Moreover, the financial plan comprising the total budget, among other items, is included in the IDP.

Finally, the implementation of water and sanitation projects and other assigned functions through the structures Act constitutes compliance with National, Provincial and Local development goals to eradicate backlogs of the past.

The budget is summarized in more detail in the budget schedules.

The budget was tabled and publicised for comments, however there are no changes to the budget. Engagement meetings were held with KZN provincial treasury and budget tables were amended as per their recommendations.

The comments on the budget are as follows:

MAIN BUDGET SUMMARY

	2013/2014	2014/2015	% INCREASE
Total operating budget	R 464 641 000	R 514,170, 000	11%
Capital budget	R 390 328 000	R 355 008 000	-9%
Total budget	R 854 969 000	R 869,178, 000	2%

The total budget increased by **R14, 209 000**

With the above background, it is important to highlight the major causes for such increases and decreases in both the operating and capital budgets. This will be done through the highlights section. Firstly, the operating budget will be reviewed. Thereafter, the Capital budget will be subjected to a review. The comments are as follows:

HIGHLIGHTS OF THE EXPENDITURE

OPERATING EXPENDITURE

Employee Related Costs

The employee related costs comprises 28% of the total operating budget. The primary reason for the increase is an annual increment of 7% including the notch increases and new positions, the positions are five administration officers, Chief Accountant (Supply Chain Management) and Municipal Health Staff Devolution from KZN department of health to ZDM.

Remuneration of Councilors

A 7% increment for Councilor's remuneration is provided for.

Working Capital Reserve

This is the provision for doubtful debts as a result of a non-collection level. The 6% increase is based on the projected inflation level.

Depreciation

This is a non-cash item budgeted for as per the stipulation of the new accounting standards and is funded from backlog depreciation. The increase is based preliminary 2013/2014 depreciation calculation taking into account those assets that are still in progress but will be completed by next financial year.

Collection costs

This is a provision for collection costs and legal fees by external parties. The provision has increased due to planned vigorous collection including the use of collection agents.

Repairs and Maintenance

Buildings

The budgeted amount is for the maintenance of municipal buildings.

Vehicles

The 6% increase is provided for due to the high expenditure on maintenance of the water tankers and the poor conditions of vehicles. New water tankers were budgeted for to add to the existing fleet of vehicles and this will also necessitate maintenance.

Operation Rural Water Schemes

These funds are set aside for the maintenance of rural water schemes and to ensure sustainability of such schemes. The funds set aside for Repairs and Maintenance actually increased by R 1 210 000. The 6% increase is an inflation provision.

Refurbishment and Maintenance

The 6% increase is due to inflation provision and the fact that Water and sanitation treatment plants need to be refurbished regularly to ensure sustainable and reliable water supply.

Moreover, the number of water scheme has increased.

Bulk Water Purification and Sewerage Treatment

Bulk sewerage treatment and bulk water purification is based on the existing contract and there are major increases resulting from Ivuna sewer treatment plant that was upgraded and as a result there is a changed processing method. In addition a budget has been set aside for the purchase of raw water from the Department of Water Affairs.

Bulk electricity has also increased by 10% as a result of the expected above average increment by Eskom (7.3%) and the contribution towards the new electricity network for the Water and Waste Water Treatment plants.

Grants and Subsidies Paid

The Grants and Subsidies have been phased out as there are no more grants received as part of equitable share. The only grants that are still payable to the local municipalities are the Tourism grants to local municipalities and the Water Services Provider grant to Abaqulusi local municipality.

HIGHLIGHTS OF INCOME

OPERATING INCOME

The sources of funding are important to ensure that the budget is actually funded and cash backed. The following items warrant specific mention:

SALE OF WATER AND SEWERAGE FEES

Sale of water is based on the proposed tariff structure. The amounts budgeted for has taken into account the level of billing and as a result, an amount of R 3 594 000 has been set aside as a provision for working capital reserve (provision for non-collection). An inflation linked tariff increase of 10% is provided for across the board.

RENT OF FACILITIES

The income is expected from renting of parkhomes that are used by WSSA and IEC as offices. The budget is based on the actual rental income.

INTEREST INCOME

Interest Income is expected to decrease from R13 981,389 to R 8 581 000 due to accelerated project implementation which reduces funds available for investment. MIG and MWIG have multi-year contracts that and there are no delays in project implementation.

References

1. Government Finance Statistics Functions and Sub-functions are standardised to assist the compilation of national and international accounts for comparison purpose.
2. Total Revenue by standard classification must reconcile to Total Operating Revenue shown in Budgeted Financial Performance (revenue and expenditure).
3. Total Expenditure by Standard Classification must reconcile to Total Operating Expenditure shown in Budgeted Financial Performance (revenue and expenditure).
4. All amounts must be classified under a standard classification (modified GFS). The GFS function 'Other' is only for Abattoirs, Air Transport, Markets and Tourism - and if used must be supported by footnotes. Nothing else may be placed under 'Other'. Assign associate share to relevant classification

Responses to Provincial Treasury Comments on the budget

A meeting was held with PT representatives on 13 May 2014. Due to the recommended amendments especially to the budget templates, a follow up meeting was held on 16 May 2014 to assist with recommended adjustments with the budget templates. The templates were then amended on the same day. After the consultative meetings, on 19 May 2014, written comments were then received from Provincial Treasury which were then attached to the budget item. However, our comments on this item are as follows:

1.2 The adjustments budget figures were corrected as per the recommendations.

1.3 Agreed, the municipality is grant reliant. It was also indicated that charging a tariff for a grant funded asset would result in double taxation and therefore the use of accumulated surplus and depreciation reserve is correct.

1.4 Cash-flow table A7 and A8 were corrected in the follow up meeting of 16 May 2014.

1.5 It was explained that the municipality adopted a tariff equalisation phasing in. This tariff increase of 10% is necessary to ensure that the budget is balanced and funded. Moreover, council has implemented a water loss reduction and as a result, perceived revenue which was actually water loss is now not realised.

1.6 It was also indicated that It would be preferred that MIG should contain an Operations and Maintenance portion so as to ensure adequate maintenance budget. Tariffs cannot possible resolve this issue as ZDM is a predominantly rural municipality.

1.7 Table SA7 has been finalised.

2.1 Due to the implementation of water loss reduction strategy, actual billing was reduced. Hence, the reduction in budgeted revenue. The tax base was reduced as a result.

- Table A2 was corrected on 16/05/2014.
In a rural municipality, it is inconceivable as to how the tariffs can be cost reflective.

Transfers Recognised - Operational

- Provincial Treasury is assisting the municipality with the revenue enhancement strategy. A report will be submitted to council once finalised. The level of grant dependency has already been alluded to.

Other sources of revenue

- Rental of facilities based on IEC and WSSA rental agreements. Hall hire is recognised as and when it materialises.

- Interest on external investments is reduced due to accelerated expenditure and the decreasing level of investments. The interest rate quoted by the top three banks is not prime but an average of 5.5%.
- Other Revenue
Appropriation of Accumulated surplus is perfectly acceptable to fund the budget. Letting the community to pay for an asset that government has paid for is unacceptable and is double taxation. Charging the community twice is not ethical.

2.2 Employee Related Costs

Basic Salaries- as stated in the report

Bonuses – SA22 has been corrected to include normal bonuses into basic salaries instead of performance bonus line item.

Remuneration of Cllrs – as per the comment

Debt impairment – Collection rate of 75% is realistic given that there are child – headed households, consumers under administration and consumers that prefer to consume only free - water when disconnected.

Depreciation – Table SA3 has been amended.

Bulk purchases

The increase in bulk purchases of 12.3 percent is due to historic figures for 2013-2014 financial year.

Contracted services

Contracted services budget expenditure is categorised into two groups as follows:

- Contracted services with existing contract: the increase is based on the condition/increment of the signed contract. Contracted services which includes repairs and maintenance that are order based where the CPI inflation increase is considered

Other expenditure (No-priority expenditure items)

It is council's prerogative to set its priorities. In any event some of these items are made necessary to ensure compliance with the systems act e.g budget and community participation.

Capital Budget

Capital sources of funding

Transfers recognised

- The municipality is grant dependent since ZDM Municipality is operating on the environment dominated by rural areas which means that revenue generation remains a challenge.
- Table A7 and A8 has been amended.

Internal generally generated funds (capital)

- The R3 million budget for vehicles is based on the anticipated additional vehicles for 2014-2015 financial year resulting from disposal of vehicles during 2013-2014.

3.2 Capital Expenditure

All capital grants will be spent fully as per business plans by the end of June 2014

Renewal of assets. It is not feasible to spend 40% to renewal of assets given that the grants allocated to the municipality are conditional grants.

Repairs and maintenance

Budget for repairs and maintenance is not sufficient, this is funded from the municipality's own limited funds

Cash flow management

Acceptability of cash or cash equivalent position

Cash and cash equivalent as per table A7 now agree with table A6 as corrected

Cash from operating activity

- Table SA10 does not include the revenue from grants but only revenue generated and items funded by accumulated surplus which make it different from A5.
- Government grants – operating was corrected on table A7
- The budgeted cash flow statement is based on the assumptions from historic figures

Cash flow from investing activity

- The difference between table A5 and A9 is the amount of refurbishment of assets which we consider as repairs and maintenance while National Treasury is considering it as the asset.
- Capital assets was corrected

Service delivery measures

- Table A10 was corrected
- Ward information has been corrected in the SDBIP.

I, J.H. de Klerk, Municipal Manager of Zululand District Municipality, hereby certify that the annual budget and supporting documentation have been prepared in accordance with the Municipal Finance Management Act, and the regulations made under the Act, and that the tabled budget and supporting documents are consistent with the Integrated Development Plan of the municipality.

J.H. de Klerk
Municipal Manager
Zululand District Municipality (DC 26)

Date: 2014-05-29

10. Overview of the Budget Process

Political oversight of the budget process

Section 53 (1) of the MFMA stipulates that the mayor of a municipality must provide general political guidance over the budget process and the priorities that guide the preparation of the budget.

Section 21(1) of the MFMA states that the Mayor of a municipality must coordinate the processes for preparing the annual budget and for reviewing the municipality's integrated development plan and budget-related policies to ensure that the tabled budget and any revisions of the integrated development plan and budget-related policies are mutually consistent and credible.

Furthermore, this section also states that the Mayor must at least 10 months before the start of the budget year, table in municipal council, a time schedule outlining key deadlines for the preparation, tabling and approval of the annual budget.

This time schedule provides for political input from formal organizations such as portfolio Committees.

Schedule of Key Deadlines relating to budget and IDP process [MFMA s 21(1) (b)]

The IDP and Budget time schedule of the 2014/2015 budget cycle was approved by Council on during August 2013, 10 months before the start of the budget year in compliance with legislative directives.

The IDP and Budget Process Plan ensure that the role-players within the process are well prepared. All activities outlined within this document have been prepared in close inter-relation with the Framework that governs both the District and all local municipalities.

The following public budget and IDP meetings were held throughout Zululand and all members of the public were urged to attend.

Date	Town/Sector
09 April 2014	Pongola
10 April 2014	Edumbe
11 April 2014	Vryheid
12 April 2014	Ulundi
13 April 2014	Nongoma

Process used to integrate the review of the IDP and preparation of the Budget

Updating the IDP and Budget is an evolving and re-iterative process over a 10 month period. The initial parallel process commenced with the consultative process of the IDP in 2013 and the update of the MTREF to determine the affordability and sustainability framework at the same time.

- **Stakeholders involved in consultations**

The draft and final budget will be provided to National Treasury and Provincial Treasury for their consideration in line with S23 of the MFMA.

- **Process and media used to provide information on the Budget to the community**

There are budget and IDP meetings to be held throughout Zululand and all members of the public were urged to attend.

- **Methods employed to make the Budget document available (including websites)**

In compliance with the Municipal Finance Management Act and the Municipal Systems Act with regards to the advertising of Budget Documents (including the Tariffs, Fees and Charges for 2014/2015), advertisements will be placed in newspapers. In compliance with S22 of the MFMA, the Budget documentation is published on the municipality's website.

11 OVERVIEW OF ANNUAL BUDGET ALIGNMENT WITH IDP

Integrated Development Plan Review Process

The Integrated Development Plan (IDP) Review Process is a vehicle through which Municipalities prepare strategic development plans called Integrated Development Plans for a five-year period. Because service delivery is progressive in nature, the IDP must be reviewed annually to keep up with the evolving nature of communities.

The Zululand District Municipality will embark on its IDP Review of the Second 5 Year cycle of IDPs which commenced from the 2011/12 - 2015/16 financial years.

Legal Status

The IDP is a legislative requirement, has a legal status and therefore supersedes all other plans that guide development at local government level.

❖ Vision

We are the Zululand region and proud of our heritage. We are mindful of the needs of the poor and we seek to reflect the aspirations of our communities. We are committed to responsible and accountable actions, tolerance and concern for racial harmony, the protection of our environment, and the strengthening of the role of women and youth. We will strive to improve the quality of life in Zululand by providing sustainable infrastructure, promoting economic development and building capacity within our communities. " We serve our people."

❖ Mission

To create an affluent district by:

- Provision of optimal delivery of essential services;
- Supporting sustainable local economic development; and
- Community participation in service delivery

❖ Core Values

- Transparency
- Commitment
- Innovation
- Integrity
- Co-operation

The above vision strategic focus areas of the Zululand District Municipality are:

- To facilitate the delivery of sustainable infrastructure and services
- To promote economic development
- To promote social development

Zululand District Municipality (Key Performance Areas)

These focus areas are broken down to objectives and strategies, which is used to set KPIs for the measurement of the Municipality's performance, and progress with its service delivery mandate. It is important to note that the national KPAs as set that relate to:

- community participation,
- good governance,
- municipal transformation
- And financial viability is considered as of a crosscutting nature and therefore forms an integral part of each of the three/strategic focus areas.

12. MEASURABLE PERFORMANCE OBJECTIVES AND INDICATORS

1. KEY FINANCIAL INDICATORS AND RATIOS

Information regarding key financial indicators and ratios are provided on supporting table SA 8.

2. MEASURABLE PERFORMANCE OBJECTIVES

Information regarding revenue is provided as follows:

- **Revenue for each vote:** Table A3 Budgeted Financial Performance (revenue and expenditure by municipal vote)
- **Revenue for each source:** Table A4 Budgeted Financial Performance (revenue and expenditure)

Provision of free basic services:

More details are provided in Table A10 Basic service delivery measurement.

13. OVERVIEW OF THE BUDGET-RELATED POLICIES

The following budget tabled policies are tabled with the budget documentation for comments and inputs:

Financial Plan
Credit control and Tariff Bylaws
Fixed Asset Management Policy
Banking and Investment Policy
Risk Management Policy
IT Policy
Supply Chain Management Policy
Insurance policy

CREDIT CONTROL AND TARIFF BYLAWS

The Municipal System Act requires Council to adopt a Tariff Policy. The general financial management functions covered in section 62 of the MFMA includes the implementation of a tariff policy. Specific legislation applicable to each service has been taken into consideration when determining this policy. This Policy has been formulated in terms of section 96 (b) and 98 of the Local Government: Municipal Systems Act, 2000 and the Credit Control and Debt Collection By-Law.

BANKING AND INVESTMENT POLICY

The underlying cash is managed and invested in accordance with the Municipality's approved Cash Management and Investment Policy, which is aligned with National Treasury's municipal investment regulations dated 01 April 2005.

SUPPLY CHAIN MANAGEMENT POLICY

Section 111 of the MFMA requires each Municipality and municipal entity to adopt and implement a supply chain management policy, which gives effect to the requirements of the Act. The Municipality's Supply Chain Management Policy was approved by Council. The recommended adjustments to the policy is to align the policy with the new Preferential Procurement Regulations, and to streamline the policy to include best practices as advised by staff of the Provincial Government following their review of the policy.

ASSET MANAGEMENT POLICY

The aim of the policy is to ensure that the assets of the municipality are properly managed and accounted for.

IT Policy

The installation of the municipality's information technology (IT) network represents a significant capital outlay, and the objective of this policy is therefore to ensure that this investment in modern technology is properly managed.

Risk Management Policy

The objective is to review the effectiveness of the municipality's financial risk management strategies, with specific reference to the effectiveness with which the municipality's financial and other policies are being implemented.

Review the effectiveness of the municipality's other operational risk management strategies, including environmental risks, risks relating to the safety and well-being of the municipality's employees and risks relating to inadequate training and functional capacitation of the municipality's employees.

Identify and assess the significance of any risks not covered by existing risk management strategies, and formulate means of addressing such risks.

Insurance policy

This insurance policy is aimed at ensuring that all assets, Councillors, employees and third parties are insured economically and adequately at all times.

Financial Plan

The purpose of the financial plan is to set out details of the financial issues that need to be addressed in a financial year. It is meant to be a tool to highlight any financial shortcomings

Indigent's policy and budget implementation and management policy are in progress, by the time of approval of the annual budget they were not on the final stage.

14. OVERVIEW OF BUDGET ASSUMPTIONS

Expenditure

Salaries and Allowances

It is assumed that salaries of employees and councillors will in terms of the National Bargain Council negotiations of salary increases for the following three years. The following was negotiated for 2014/2015 namely:

Salary increase based on CPIX 5.6% plus 1% notch increase for qualifying employees.

General expenditure

It is assumed that costs for services will increase in line with the CPIX. The current oil price is a concern and it is expected that the fuel price hikes will have a substantial effect on expenditure. It is also assumed that the capital projects for 2014/2015 will be completed during the financial year as there were budgeted for, the depreciation of such projects as per general recognized accounting practice (GRAP) is also taken in to account.

The depreciation is assumed to increase in 2014/2015 because there are projects that will be capitalised to assets which are still in work in progress. That will accelerate the depreciation expense. The depreciation will be funded by our reserves.

General expense consist of all expenses that are not allocated specific space in the template, that is why it will be seen to be more than 10%.

Repairs and Maintenance

It is assumed that municipal infrastructure and assets will be maintained and there will be an increase on its spending. No major breakages will take place during the financial year.

Finance costs

It is assumed that interest rates will be stable during the financial year, but the provision for interest is base on lease liability.

Bulk Purchases

It is assumed that electricity tariffs of Eskom will increase by 7.39% as from 1 July 2014, as approved by NERSA.

Contracted services

Contracted services include all services are contracted and also repairs and maintenance since our repairs and maintenance are provided external.

Income

Collection rate for municipal services

It is assumed that the collection rate (percentage of service charges recovered) for the financial year will be the same as the current payment rate. In accordance with relevant legislation and national directives, the estimated revenue recovery rates are based on realistic and sustainable trends. The Municipality's collection rate is set at an average of 75%. Adequate provision is made for non-recovery.

It is assumed that in 2015/2016 and 2016/2017 the collection will be 75% and 75% respectively.

Sale of water and sewerage fees

An inflation linked tariff increase of 10% is provided for across the board. The budget was also based on the realistic billing figures and the projection was made.

INTEREST ON INVESTMENTS

Interest Income is expected to decrease due to accelerated project implementation which reduces funds available for investment. MIG and MWIG have multi-year contracts and there are no delays in projects implementation. The investment to financial institutions depends on the interest rate of that institution during that period.

Other revenue

other revenue in the budget consist of the amount that will be collected during the year such as meter testing, tender fee, indonsa hall hire, indonsa deposit refundable etc. The other potion of revenue is not collectable revenue but the funds that will be used to cater for the expenses other than those funded by grants and also to cater for backlog depreciation and provision of doubtful debts.

Grants

It is assumed that the National and Provincial grants as per Division of Revenue Act (DORA) which has been included in the budget will be received during the 2014/2015 financial year.

FINANCIAL POSITION

Property Plant and Equipment

It is assumed that looking at our current funding there will be a decrease in addition to PPE in 2014/2015 as compared to 2013/2014.

Long –term Receivables

It is assumed that taking in to account the current movement there will be an increase in 2013/2014 long term receivables resulting from the 7.39% increase by Eskom and also the provision for new accounts. This 7.39% increase taken in to account in the two outer years.

Intangible Asset

It is assumed that the Intangible asset will increase with R50 000 as the net movement after taking into account the amortisation amount and the payments to software licences for the year over the three year period.

Call Investment Deposits

2013-14: The Call investment estimated balance was determined based on the call investment balance as at 31 January 2014 and together with the projected six months expenditure based on the prior year conditional grant expenditure. For 2013/14 financial year going forward, it is assumed that there will be an increase.

Inventory

The inventory level is assumed to increase in the next financial year based on the current stock level.

Trade and other payables from exchange transactions

Looking at the systems being in place and the system to be implemented, it is more likely that our payables will decrease by 6% in the 2014/2015 and 10% in the other two outer years.

Consumer Debtors

It is assumed that looking at our rate of collection and debtor's age analysis it is more likely that there will be an increase in consumer Debtors.

Consumer deposit

If we are looking at 6 months movement, it gives us an increase in consumer deposit. An increase is the net movement between new accounts and consumers who defaulted. There is proposed new method of how to deal with the consumer deposits but it is still at draft stage. We made the assumption that next year which is 2014/2015 the change will be more or less the same and the other two outer years.

Transfers and grants – capital

The Regional bulk infrastructure grant is reflected in the budget because of the confirmation from water affairs that we will receive the funding.

Other Grants

The following grants are gazetted by provincial treasury in terms of section 30(2) of Division of revenue bill 2014.

Corridor development, Shared services and Art centre subsidies (Indonsa Grant)

Cash flow

Cash from operating activity

The assumed collection rate based on the current collection level is 75% of billable revenue, taking into account that there are debtors paying for 2013/2014 debts.

The figure for other revenue is assumed based on the last financial year AFS and current collection.

All other activities are assumed based on the previous financial statements information and taking into account the current movements.

The SA10 is detailing the funding in terms of grants

Reserves

The process to accumulate sufficient funds is a long term process as tariff increases must be kept to a minimum, and service delivery must be continued.

Sustainability of municipality

The way that the budget is funded will ensure that the municipality will be sustainable on the short term.

Impact on tariffs

The way that the budget is funded will ensure that, increase will be 10% to make equalisation. The municipality has no control over the increases of electricity tariffs and the 7.39 % increase in electricity tariffs of Eskom; will have a negative impact on the local economy, although tariffs charged by the municipality will only increase by 10% on average.

Water, sewerage together with the sundry tariffs are listed in tariffs schedule. The tariff increases are also indicated.

Collection Rate

Income levels for service charges and rates for the budget year are based on the following

Collection rates

Water 75%

Sanitation 75%
